

PNQIN MATERNAL EQUITY BUNDLE

Gather a multidisciplinary team to implement the Maternal Equity Bundle at your hospital in conjunction with hospitals across MA and with the support of PNQIN to reduce racial inequities in maternal health.

PNQIN'S EQUITY JOURNEY

- **2016:** Perinatal-Neonatal Quality Improvement Network of Massachusetts (PNQIN) established as an equity-based organization.
- **2018:** Built statewide partnerships to culture shift toward equity.
- **2019:** Joined the Alliance for Innovation on Maternal Health (AIM) and began launching patient safety bundles with an equity focus.
- **2020:** Supported hospitals in addressing racial inequities through reporting Severe Maternal Morbidity (SMM) data by race/ethnicity and Racism upstander training for perinatal staff.
- **2021-present:** Pairing data with quality improvement (QI) action through racial bias training and Maternal Equity Bundle launch.

BUNDLE COMPONENTS

*Black birthing people are 2-3x as likely to experience severe maternal morbidity and mortality than their white counterparts. **To eliminate this inequity, we need:***

1. **Champions:** Clinical (MD/RN), community partners, hospital leadership, staff-wide buy in
2. **Tools:** Stepwise implementation of REAL data use, team readiness, and practical PREMs
3. **Culture:** Prioritize equity, engage community, participate in equity & bias training and self-reflection
4. **Measurement:** Perinatal measures and SMM data by REAL, labor & delivery QI initiatives, bias reporting systems, and PREMS
